

SUGGESTED GIFT LIST

Christmas is a wonderful time of year, and should not be missed by any child. With our annual Toy Store, we make it a wonderful experience for under-served parents and their children.

The Toy Store was created to help families who could not afford to spend much on toys and gifts. Purchasing toys and gifts at a discount helps parents feel that they are contributing to their child's Christmas while enabling the parents to choose items based on their child's interests and needs. Here is a list of suggested donation items.
